IV. MARKETIBILITY				
1	How is marketability?			
2	What are the factors favouring for an extra potential value?			
3	Any negative factors are observed which affect the market value in general?			
V. RATE				
1	After analysing the comparable sale instances, what is the composite rate for a similar flat with same specifications in the adjoining locality?			
The estimate of Fair Market Value is based on situation, location, size, shape, road width, Neighborhood, accessibility, frontage, environmental aspects, demand and supply. The property rate is considered after information received by surrounding property holders. Also necessary information has been collected from nearby occupant. Our market inquiry among nearby occupant has revealed that similar sized property in the vicinity of the subject property is available in a range from based on Carpet area.				
2	Assuming it is a new construction, what is the adopted basic composite rate of the flat under valuation after comparing with the specifications and other factors with the flat under comparison			
I have adopted market approach method for valuation of the property. Local Inquiry as well as market Survey				
3	Break up for the rate			
	(i) Building + Services			
	(ii) Land+Others			
4	Guideline rate obtained from the Registrar's office
